“*Kate is my neighbor. I know her since 2009. She is a very friendly lady. She even shared her experience with me and understand others. She is always polite and east to communicate with. It is a lost for the community for such a great neighbor. We will miss you.*”

“*Katie was the only mother figure in my life. She was always so selfless when it came to those she loved and even strangers. She was always prepared for any situation or circumstance and would never be caught looking a mess. She would always crack me up with her one liners and she always gave the best advice. No matter how many times I made her mad or got on her nerves, she always had nothing but compassion and love towards me. She taught me a lot of valuable life lessons that I will pass down to my own children one day. She taught me about love and all the wonderful things that come with it. Katie was never able to have children of her own so I hope I was able to fulfill that for her by being her daughter as I feel incredibly lucky to have had her as a mother. I certainly will be forever grateful for having her in my life. I love you Katie and you will forever be in my heart. Harry loves you too!*”

“Katie was a mother figure to me, She taught me so much growing up. She was a very smart woman, I'm amazed everyday I walk into her beautiful store in downtown Aurora of what she created. She brought me, my sister and dad into her home and treated me like her son right away. I will miss all the great dinners I was spoiled with growing up. Every time I walk my dog I know she's up there looking down at me.

“Katie, has always had a special place in my heart. I admire her for showing up for nicole and adam. For always being there for her family but also for following her dreams. She was kind, a fashion icon (always presentable), creative and such a hard working woman. I always admired all the things she accomplished. Thank you Katie for all you shared with me, for letting me hang around the house all the time, for all the wisdom, the christmas mouse I begged for but most importantly for treating me like family. I love you, and I will carry your lessons and your selflessness and kindness with me always.

Growing up with Kath I have so many good memories. She had to put up with me tagging along where ever she went when I visited her and Aunt Gwen! Loved to hear her play the piano. Color my World by Chicago always comes to mind. We may have not kept in touch as much as we should have but she was and is always in my heart. Love you Kath
